

Line Card

Official Lines

COMPONENTS

Semiconductors

Wireless modules & SoCs, MCUs, Sensors, Interface ICs, PMICs.

Energy Harvesting PMIC's, Photovoltaic, Radio Frequency, Thermal, Vibration, Low power MCU.

Organic indoor light energy harvesting modules (LEHs).

LoRa IoT Modules and Sensors, LoRaWAN Modules and Sensors, ASIC Design, Embedded Systems, IoT.

M2W Modules, GSM/GPRS, WCDMA, HSDPA, LTE, GPS/GNSS, NB-IoT.

SD/microSD cards, SATA SSD, SATA modules, PCIe BGA, PCIe cards.

DDR1, DDR2, DDR3, Mobile DDR, Synchronous SRAMs & DRAMs, Low Power & Fast Asynchronous SRAMs.

Timing products, Digital isolators, Audio & Video ICs.

Power & Battery Management, Energy Measurement Ics, Protection Devices, EMI Filters.

Power Magnetics, LED Transformers, EMI & RFI Filters, LAN & COM Magnetics, DC/DC Converters.

Transformer Products, Inductor Products, Filters.

Bandpass & Crystal Filters, Crystals, Oscillators, Resonators, Synchronization Modules, Antennas.

Diodes & Rectifiers, Protection Devices, JFETs & MOSFET Transistors, Thyristors, Multi Discrete Modules.

Low Power SRAM, Fast SRAM, LED Driver Ics, LED Lights, LDO Regulators.

EMBEDDED

Computing

ARM & x86 Architecture, Qseven Boards, COM Express Boards, ETX & XTX Boards, Mini & Pico-ITX Boards

What we do?

We translate your needs into high-level electronic solutions. Our product portfolio includes high-quality electronic components, IoT communication modules and technology for test & measurement as well as engineering and developing software. We represent the world's leading manufacturers such as Altium, ARM, Dassault Systems, and Silicon Labs.

What makes us different?

- We are independent and dedicated to solutions from more than 50 different high-tech suppliers.
- We provide technical sales & support from the very first design through manufacturing up to the entire life cycle management.
- We keep your supply chain and logistics management lean & digital.
- We are your first-choice partner with presence in Switzerland, Poland & a network of Eastern European local offices.

Headquarters | Software

Computer Controls Sp. z o.o.
ul. Budowlanych 1
PL 43-300 Bielsko-Biala
Tel: +48 (33) 485 94 90

Sales Office | Components

Computer Controls Sp. z o.o.
ul. Pańska 98/4
PL 00-837 Warszawa
Tel: +48 (22) 718 31 90
E-mail: components@ccontrols.pl

COMPONENTS

Displays

TFT Displays, COG Modules, Character & Graphic LCD Modules, 3D Displays, FS LCD, ASTN LCM.

TFT LCD, Memory LCD, Custom LCD, OLED Displays, Displays Enhancements, LCD & LED Drivers, LCD Controllers, LCD Interfacing.

E-paper displays, Ultra-low power colour solutions, Ultra-low power segmented solutions.

Character & Graphics LCD Modules, Display Modules with CH-LCD.

TFT Displays, COG Displays, Character & Graphics LCD Modules.

Character & Graphics LCD Modules, TN+STN+HTN LCD Displays, TFT Displays.

Character & Graphics LCD Modules, Custom Modules.

TFT LCD Modules, STN Dot Matrix LCD Modules, STN Character LCD Modules, Segments LCD modules.

Resistive & Capacitive Touch Panels Solutions, Resistive Touch Controllers.

INSTRUMENTS

Test & Measurement

Oscilloscopes, Analyzers, Meters, Generators, Supplies, PXI/AXIe/DAQ & Modular Solutions, Accessories, Software.

USB Oscilloscopes, Data Loggers, Pulse Generators, Automotive Kits, Oscilloscope Accessories, Software.

Oscilloscopes, Spectrum Analyzers, DC&AC Power Supplies & Loads, Precision Measurement Equipment, Safety Testers, Accessories.

Power Supplies & Loads, Waveform Generators, Precision Measurement Equipment, Accessories, RF & EMC Test Equipment.

PCBite kits, Hands free probes, Accessories and spares.

SOFTWARE

Development tools

Altium

A world leader in developing and creating electronic design tools for professional electronic designers. The flagship product Altium Designer is known for excellence in native 3D PCB designing and incorporates all the design tools into a single, unified user interface.

2D CAD, 3D CAD, CAM, ECAD-MCAD Collaboration, Electrical Design, Product Data Management, Simulation Solutions, Technical Communication, Visualization.

armKEIL

C/C++ compilers, debuggers, RTOS and middleware libraries, evaluation boards for ARM, Cortex-M, Cortex-R4, C51, C166, C251 processor families.
